

Upgrade of Husqvarna Viking Designer SE to LE status, hardware and software update

Hardware upgrade Includes:

New style Bobbin Case 413 05 89-01
New style Thread Break Spring 413 15 74-01
New style Fetcher 412 54 54-03
Knife Slide (on fetcher) 412 79 50-01
Thread Knife (in Knife Slide) 412 42 37-01

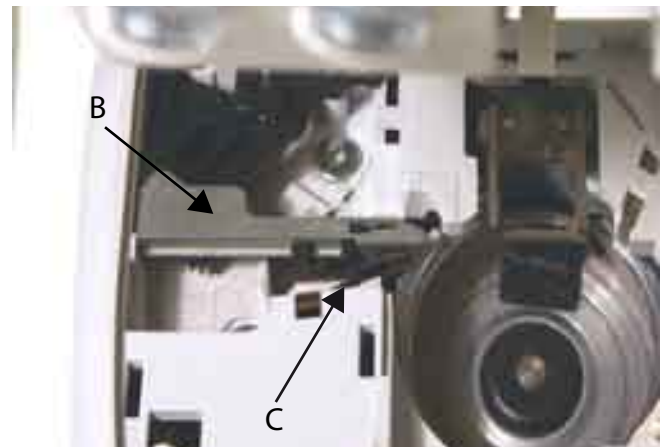

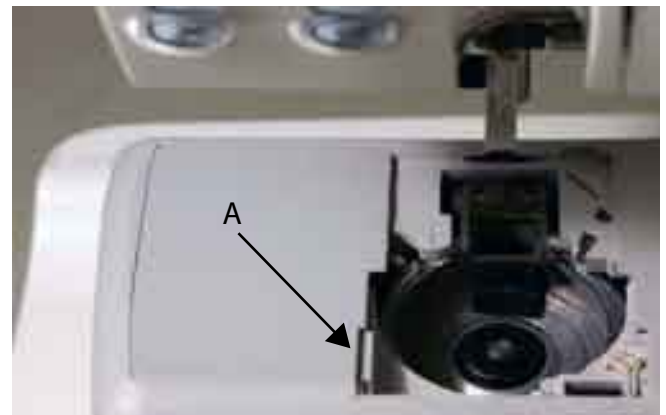

To remove old parts:

1. Snap off presser foot. Remove needle.
2. Slide off bobbin cover, remove bobbin.
3. Remove stitch plate, lift out bobbin case holder and bobbin case.

(consult the User's Guide for specific instructions and illustrations on steps 1-3.)

4. Slide flat head screwdriver under the thread cutter cover at right front (A) and turn screwdriver slightly back and forth slowly to lift the thread cutter cover off.
5. Use fingers to grasp the fetcher (B) and lift straight up to remove it.
6. Grasp the thread break spring (C) and wiggle it to pull it out to remove it.
7. Discard/throw away: the bobbin case, fetcher and thread break spring.

Brush the lint from the bobbin and cutter area!

To install new parts:

1. Slide the new thread break spring (C) in until it snaps in place.
Be sure that the bottom tab goes into its slot and the spring is all the way down.
2. Mount the new knife in the new knifeholder.
3. Slide the new knifeholder on to the new fetcher.
4. Take the new fetcher (B) and move the knife slide all the way towards the pointed end of the fetcher. Both pins on the underside of the fetcher shall go into the holes of the two black arms (D). Pull back the break spring to allow the fetcher to settle. Check that the bottom "tab" of the knife slide fits into the recess in the hook cover (E).
5. Snap the cover over the thread cutter back on.
Turn on the machine. Check that the fetcher goes to the right and back to the left when touching to test use Selective Thread Cutter button.
6. Put in the new bobbin case and mount the bobbin case holder. Put the stitch plate in place, put in the bobbin and thread the machine.
7. Install Designer SE Update internal software version 12028 or higher.
8. Test Designer SE Cut jump stitches function with any multicolor design.
